## **FOOD EXPLORATION: RESEARCH EVENT WORKSHEET**

### **WELCOME AND INTRODUCTION**

**TOPIC EXPLORATION** (you or guest speaker present to attendees the information gleaned from research. This can be in the form of a lecture, video, field trip, etc.)

**SERVE RESEARCHED TOPIC** (If your presentation would be enhanced with a food sampling, a chocolate or olive oil tasting, for example, so attendees can experience first-hand the topic being explored. Maybe it's a recipe created by a famous chef to share with the group. Food is optional and at the discretion of the event host.)

### **DISTRIBUTE HANDOUTS**
